WEDDED TO A NEGRO.

A Beautiful Young White Girl Marries a Colored Man.

New York, August 15.—The Times' Nyack special says: The elopement of a beautiful white girl with a young negro has made a great stir throughout the western part of this country. The affair occurred two weeks ago, but it has been kept strictly secret until yesterday, when it leaked out. Jennie Winter, a young miss who figures so conspicuously in the proceeding is the daughter of Richard Winter, a well-known gentleman. A couple of weeks ago she went out but did not come back. Her folks worried and next day Winter, when in search of the girl, was told she was with Edward Mann at his brother's house. The old man, with his heart full of unpleasant thoughts, wended his way to the home of the negro, Mann, and there true enough he found his daughter. After some little conversation he asked her to go home with him and she replied that she could not. She then sent out after Mann and the young negro soon made his appearance. Winter told him he wanted his daughter to accompany him home, but the negro said she could not go. Then going to an adjoining room, he soon returned with a marriage certificate in his hand, which he showed to the girl's father. The man bowed his head in grief and burst into tears. He soon afterward left the house and went home, taking with him the unpleasant news to the rest of the household. The marriage ceremony was performed by Rev. R. R. Mansfield, rector of the Episcopal church at Saffern, Rockland county.

Giving Cleveland a Good Character.

New York, Aug. 16.—A dispatch to the World from Washington, dated the 16th, says: It is believed that the forthcoming annual report of the Civil Service Commission will give the Cleveland Administration a certificate of good character and criticize sharply the Civil Service reformers of the George William Curtis school. Commissioner Edmunds, in conversation, said that, in his judgment, under the law the form of removal is more respected than it was before the Civil Service law was enacted. He maintained that it is the duty of the Commission to procure good and competent persons for classified service, and when that is done its duty is ended. Continuing, he added: "In the report I shall take very decided ground against these investigations or indefinite charges by irresponsible persons. I shall be pretty severe upon the Chicago Civil Service League, who made charges and had nothing to sustain them. Such organizations should attend to their legitimate business. No official is bound to give reasons for the dismissal of subordinates."

Protecting Stock From Insects.

At this season of the year, says the Scientific American, the annoyance caused to animals by flies and mosquitoes often amounts to positive agony, and at all times, in what is called good weather, is sufficient to prevent the stock eating enough to keep them in good condition. The animals will stand in the water or pass the greater part of the day in the shade rather than expose themselves to the sunshine, going out to eat only when driven out by hunger. They quickly lose flesh, the flow of milk shrinks, and a loss is incurred that cannot be made easily good again. At all times a good feed of grain is beneficial to stock, but it is especially so when flies are very annoying, since it would do much to prevent the shrinkage in flesh and milk. Horses and milch cows may be protected, in a great measure, by wiping them all over with a sponge dipped in soap suds in which a little carbolic acid has been mixed.

The Republicans of Pennsylvania the native State of James G. Blaine, will view with high pleasure his nomination for the Presidency in the campaign of 1888. An accident cannot abate the admiration of a great party nor the admiration of a great people, for a statesman true alike to his convictions and to his country.

A rumor is afloat that Postmaster General Vilas is anxious to receive the nomination for Vice President on the ticket with Cleveland. If he desires to be consigned to political oblivion, it will be the best possible thing he could do.

THE SURVEYOR GENERAL'S REPORT.

What It Says of the Resources and Prospects of Nevada.

The following from the annual report of United States Surveyor General Irish is published:

"I know of no part of the United States where farming has a larger or more certain return, than do the cultivated lands of Nevada. Tillage depends now upon irrigation, but observation convinces me that alfalfa and other valuable crops could be raised in many places without irrigation, or, at most, using for the purpose the flood waters that rush out of the mountain defiles in the Springtime from the early melting snows.

"There is much yet to learn of Nevada's tillable lands, for farming is in its infancy here. By the State reports for January, 1887, I learn that at that date there were only 120 square miles of tillable land in the State.

"Making an approximate estimate from maps in my possession, I find that about 50,000 square miles of the surface of Nevada is occupied by mountain ranges; 41,000 of what are classified as deserts, and the remaining 21,000 square miles is made up of rich agricultural land, needing only water and the care of the husbandman to produce valuable crops, and give the State a sturdy, steadfast population and increasing wealth, which, added to the mineral output, and the value of the vast herds of cattle, sheep and horses which the State will support, will put Nevada in the front rank of States.

"The cattle interest is now equal to, if not ahead of the mining interest in value and importance. Great herds are to be found in every quarter of the State. The animals are herded at the foot of the mountains and in the valleys during the winter season, and in the Summer upon the mountains. The owners of these herds perceive that they have overstocked the country to such an extent that the bunch grass and other herbage which made it valuable as grazing country, are rapidly disappearing. This fact has turned their attention to raising hay for winter feed, and out of the demand for hay has come a use for the State's tillable lands in production. This demand from this one source will increase from year to year, and will be reinforced by other demands for lands for other purposes and by other classes.

"As the law now stands it is next to impossible for the owner of a herd of cattle to acquire title to the lands which he must occupy in order to successfully carry on his business. The law should be so amended as that the mountain and desert lands may be acquired in large grazing tracts as cattle ranges, reserving the water right for the use of those who wish the waters of the canyons for agricultural purposes on the plains below. I can see no reason why these otherwise useless tracts, so great an area, should not by law be made available for the purposes of stock raising, and become consequently a source of revenue to the State and to the Union, as are the mineral lands which are so carefully reserved and made available to the prospector and mineral claimant. As it is now, these vast mountain chains and wide desert plains, are a yearly battle-ground, upon which contending herdsmen meet, and by 'wager of battle' decide who shall use them.

"It is not equal and exact justice to all classes of citizens, where the deliver in one source of wealth is fully protected in his rights because he has been the lucky discoverer of a mineral ledge, or a bed of salt, borax or soda, which his fellow citizens, just as acceptable and equally industrious, is denied all rights, and, forced by the law, becomes an Ismaelite, protecting and supporting his property by the strong arm. If he acquire any rights at all under the law, he must do it by fraud.

"As I have said before, the cattle interest is next to, if indeed it does not outrank mining. This being so, this class of capitalists is entitled to as much consideration at the hands of Congress as any other producers in the State or in the country. It costs but little to obtain a mining claim, while it costs among thousands to establish a cattle herd; and yet its owner is denied an abiding place, is driven from mountain to plain, and from plain to mountain, at the will of his adversary, while the mining claimant is secure in all his rights.

"Give the ownership of the useless mountains and desert plains of Nevada, by just and equitable laws, to the owners of the cattle interests, and at once their millions of invested capital will make itself manifest in flowing wells upon the desert, prosperous ranches upon the mountain sides and tops, and that which is now worthless to the State will become a fixed source of wealth and power."

The San Francisco Examiner intends to establish a telegraph line between San Francisco and Los Angeles and will start a daily paper at that place. Hurrah for western enterprise.

Colonel Lamont said yesterday that it would be practically impossible for the President to accept the proposed invitation to visit California this year.

SHOT IN THE LEG.—Last week Nick Farber, of Columbus, got into a dispute with some people whom he found in his house on his return home. It appears that he was in his cups and became violent, making threats of bloodshed. A peace warrant was taken out and in default of bondsmen he was taken to jail by the Constable. He had the keys of the house in his possession and his wife was left out in the street. When requested to give up the keys in order to permit her to enter, he refused, and it was determined to take them from him. A man whom the Constable called on for assistance threw his coat on the floor and a pistol in one of the pockets exploded, sending a ball through Farber's left thigh, making a rather painful but not serious flesh wound. Farber is now in the custody of the Sheriff awaiting bonds. The shooting was entirely accidental and will out no figure in Court. So says the Walker Lake Bulletin.

A RAILROAD SURVEY.—The Walker Lake Bulletin says:

A party of sixteen men arrived on Monday on the C. C. Their destination is the range near Bodie, whence they will run a preliminary line for a broad gauge railroad across the State. Some of the talk will materialize into track and some of the lines that have been run will be adopted as a good many large companies envy the C. P. its trans-continental advantages. There is not even the shadow of a doubt that within a few years other through lines will cross the State and competition will regulate fares and freights. The party now out may be at work on a line which will swell out into a double track, or it may be that some other party will drive the pegs that will stiel, still it is to be hoped that these gentlemen are at work in the interest of a company that means business both extensive and immediate. A swallow don't make a Summer and a preliminary line don't make a railroad, but the chances are that this costly work is not undertaken at the present time without a reasonably fixed intention of following it up with grade and track.

The Found Treasure Mine in Tuscarora is looking well. The old camp is getting better every day.

A. D. Griffin came over from Peavine Wednesday. He reports everything looking well in his vicinity.

Edward Hinkle, who was injured by a cave in Six-mile Canyon a few weeks ago, is convalescing rapidly.

Theodore Winters is exercising two horses for the State Fair. The beach of the little lake is his race-track.

Shaving 15 cents at the Star Barber Shop, Virginia street, opposite F. Levy & Bro., H. L. Mead, Proprietor.

An insane man by the name of Perkins was arrested by Constable Upson yesterday and placed in the Jail.

James Mayberry will cut 1,000 tons of hay this season. He has cut 700 tons already, and will cut 300 tons more.

John Jones came in from Sierra Valley yesterday. He states that the crops in that neighborhood are nearly gathered in.

Little Washoe lake is almost dry. A few ducks frequented it, but Virginia pot-hunters came down and killed them off.

Mr. E. Kossman, a former resident of the Comstock, was run over by the cars in Oakland and killed Tuesday evening.

The Found Treasure mine, of Tuscarora, has been listed at the Consolidated Stock and Petroleum Exchange in New York.

John F. Alexander and wife came down from Carson last night. The General goes to the eastern part of the State.

The work of fitting up the establishment of Hill & Dougherty is progressing rapidly. They will soon be ready for business.

Ormsby county, as a county, has made application for space at the Fair Ground and in the Pavilion for an exhibit this Fall.

B. E. Hunter who has been laid up with the rheumatism for several weeks, is able, with the aid of a crutch, to appear in the street again.

The Central Pacific Railroad Company has issued a special coal tariff for Nevada and Utah, which is a great reduction on the old rates.

A negro named Brunt, in Los Angeles, went off on a drunk and allowed her two children to starve at home before the police found them.

The Willow Creek mill is now pounding away on Willow Creek ore. A car of concentrations will be shipped to the Reduction Works this week.

Some of the papers in this State are always willing to extend sympathy to injured miners but when a home for them is mentioned they remain serenely quiet.

The aged mother of John and Patrick Hogan has been very ill for several days past, but was some better yesterday. Patrick Hogan was summoned to Reno in consequence of her illness.

Oats that measure over six feet in height and that will yield eighty bushels an acre, have this season been produced at Lovelock. In the same place the yield is sixty bushels to the acre.

DECLARED INSANE.—English George, better known as "Gypsy George," who was sentenced from Washoe county four years ago to serve a term of seven years in the State Prison, has been declared insane, and was brought to the Asylum yesterday by Capt. McInnis.

ROBBER.—Robert Clemon, who stabbed John McLean in Virginia City, claims that he had \$350 in coin in his boot leg when he was put in jail, and that he was robbed of it. The jail birds were searched but no money was found. It is rather a shaky story.

It is a fact, Captain and Mrs. A. C. Bragg left last evening for the Bay.—Gazette.

Who put you on? It is not a fact that Capt. A. C. Bragg went to the Bay. It was Capt. C. A. Bragg.

A DASTARDLY ACT.—There is a gang of Indians that hang around the Pavilion that are a positive nuisance. Some of the younger ones yesterday caught a little white boy named Fred Hewlett, held him and encouraged one of their crew dogs to bite him. A good black-snake whip wrapped with a will around their breech-clouts would have a very good effect upon the fiendish propensities of such Indians, and would be well deserved. Young Hewlett was badly bitten in the thigh.

BASKETBALL.—If the Amateurs, of Carson, intend to send representatives to the tournament at Quincy, they should send the best players they have. They have demonstrated that they are good players, notwithstanding the fact that a little humor has been poked at them. If good players are picked out, they ought to be able to make their expenses and show our California friends that Nevada can acquit herself creditably on the diamond field.

STILL THEY COME.—Frank Smith, wife and children, from Shasta county, Cal., arrived on the delayed train yesterday to make Reno their future home. Accompanying them was Mrs. Thos. Harrington and child, who came to join Mr. H., who is settled in the blacksmith business here, the family of Chas. Morland having preceded them; thus Reno gains the three families that Shasta loses.

RETURNED.—Dick Yannatta, who has been at Lakeview and in the vicinity of Fort Bidwell for several months, returned to Reno last night. He says that everything in that portion of the country is looking well, but added that "Reno takes the cake." He was greatly surprised to see the improvement that has taken place here during his absence.

DRIVE THEM OUT.—Our representatives should call the attention of the Interior Department to the Indians that frequent Nevada towns and see if they cannot be placed where they belong. If there is no land set aside for them, give them some and put them on it. They have always been a nuisance and are growing worse all the time.

HORSES IN TRAINING.—Joe Pearson has several trotting and two running horses at the race-track, that he is training for the Fair races. It is said that he has a two-year-old running filly that displays phenomenal speed. The races this Fall promise to be the best ever witnessed in Nevada, and will no doubt attract a large crowd.

COMING TO THE FAIR.—It is rumored that Chauncey Hoffman, of Carson Valley, has several horses in training at Genoa, and expects to carry away some of the purses at the Fair. The horses are well spoken of by those who have seen them, and our horsemen will have to look out or Chauncey will "nail some of them to the cross."

CAUGHT RETAILING.—Capt. Dunne, by a stroke of strategy, discovered that the Reno Liquor Company were selling liquor by the retail without a license, and made them pay the penalty. He has been satisfied for sometime that they were retailing and when here Wednesday he caught them in the act. The penalty was paid.

ELECTRIC LIGHT.—Just as soon as the building is completed, the Electric Light Company will put the new dynamo in place. It has a capacity of 25 arc and 50 incandescent lamps, the majority of which have been spoken for. Everything will be in complete shape before long, and Reno will be brilliantly lighted again.

A DANGEROUS INDIAN.—One of the Indians arrested Wednesday pulled a revolver and tried to use it on Constable Upson. He overpowered him, and took his gun, after a hard struggle. Some of the fiends that are engaged in this nefarious traffic with the Indians will yet have a murder or two to account for.

MANY THANKS.—The JOURNAL acknowledges the receipt of a small box of peaches from Mr. S. Bishop, of Iyco county. They were raised near Independence, and are magnificent specimens of fruit. If Iyco can send such specimens to the Fair it will carry away the \$50 prize.

A NEW PROJECT.—Doc. Murphy, the Mayor of Washoe, will be down in a few days to negotiate with the Electric Light Company for the planting of an electric light on the shores of the little lake, so that the Virginia hunters can kill ducks and nail cat fish at night.

JUNCTION COURT.—The Indian Newt, who resisted the officers Wednesday night, was sentenced to jail for 30 days.

Paul Frances, arrested for drunkenness, was locked up for ten days. Two gnaws are languishing in the calaboose for over indulgence in tangle-foot.

RACE TRACK.—Since William Marsh has taken charge of the race-track, it shows decided improvement. He is an old and experienced turfman. He says that by the time the Fair comes the track will be very fast, and any horse can show his metal.

AN IDAHO SHERIFF'S DEED.—Last Saturday morning Williams Vickers, an Oregon desperado, was shot and instantly killed at Shirk's ranch, in Guano Valley, Or., while resisting arrest on a charge of murder, by Sheriff George Dunning, of Owyhee county, I. T. A boy 19 years of age, name unknown, who fired on the Sheriff in Vickers' defense, was also killed by the Sheriff. The Sheriff lodged three bullets in Vickers' brain, and blew the top of the boy's head off at the first fire. Vickers has long borne a bad character, and he has successfully resisted arrest on several occasions. Vickers is the same party who attacked Charles Moore, a surveyor, a short time since, and nearly killed him.

THE REAPER AT WORK.—A. J. Dallas, an old resident of Tuscarora, and well known all over Eastern Nevada, died at that place on Tuesday. Mr. Dallas was a prominent member of the Elko county Democracy, and was a candidate for Sheriff at the last election, but was defeated by Tom Atwell. The deceased was a generous-hearted man, and ever ready to aid in any public work. He was a brother of Mary Kyle Dallas, the writer. A. J. will be missed by his many friends, and Tuscarora will look unnatural for a time without him. All the old timers are going out with the tide, and it will not be long until all of them will be on the other shore.

BIG FANDANGO.—Capt. John, Pinto fandango boss, has issued a proclamation for a big fandango at Lovelock's commencing on Thursday, 28th instant. A general invitation is extended to all the Pintos from Walker Lake to Fort McDermitt, and to the Shoshones from Golconda to Humboldt Wells, to attend the dance and gather pine nuts. Capt. John, who is now blind, is alone authorized to issue a call for a big dance. Buena Vista John says the butcherman at Lovelock should have plenty of meat on hand for the Indians, and he expresses the wish that no one will sell them fire-water.

THE KIRMAN MINE.—The Evening Report says Richard Kirman has just returned from his mine on the west slope of the big hill. He reports the shaft down 350 feet. A west crosscut has been run from this 130 feet, and the face is now in a favorable formation, having passed through seams of clay and porphyry. There is some water in the shaft, but it is readily handled. There are six men employed in the mine, and two horses make up the hoisting power. Mr. Kirman leaves in the morning for a trip to his ranch in Douglas.

SAVED THE TROUBLE.—The Walker Lake Bulletin says: "Last week a party of boys found a nest of rattlesnakes near Ont Creek. They returned the next day with clubs and guns, prepared to burn the 'varmints' out and destroy them. On arriving at what was to be the battle-ground they found that a band of hogs had made a location and had rooted out and devoured the enemy."

MINERAL EXHIBIT.—W. H. Havenor is in Reno and states that he will try and make a mineral display at the State Fair. It will be almost equal to the exhibit made by the State at the New Orleans Exposition, of which Mr. Havenor had charge.

ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21—aw f-lv

COUNTY EXHIBITS.

\$100 FOR THE BEST, \$50 TO THE SECOND. The State Agricultural Society is laboring to bring out Nevada's resources. In order to have a proper exhibit from the various counties it offers \$100 for the best and \$50 for the second best exhibit by counties. Washoe county is excepted from competing because it is the "local" home of the Society. The articles grouped together by any county as a whole, will not be excluded from competing singly, and may be entered in that manner, for the various classifications printed in the catalogue.

Trials of Speed to be conducted under the auspices of the Directors of the State Agricultural Society.

THE STATE AGRICULTURAL SOCIETY WAS ESTABLISHED IN ACCORDANCE with an Act of the Legislature of the State of Nevada, entitled "An Act to provide for the management and control of the State Agricultural Society of the State," approved March 7, 1885.

Members of the State Board of Agriculture:

L. J. FLINT, of Washoe County, C. C. POWNING, of Washoe County,
B. F. LEBT, of Washoe County, ALVARO EVANS, of Washoe County,

REMARKS AND CONDITIONS.

Nominations to stakes must be made to the Secretary on or before the day of August, 1887. Entries for the purses must be made for Monday's races on the Saturday preceding, for Wednesday's races, on Monday, and for Friday's races, on Wednesday, at the regular time for closing entries as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race, at 8 P. M. Horses entered in purses can only be drawn by consent of the Judges.

The rules of the Pacific Blood Horse Association will govern running races. All horses entered for State purses must be owned and kept in Nevada and California, east of the Sierra Nevada, for six months prior to day of race. Entries to all trotting races will close September 1st, with the Secretary. Five or more to enter and three or more to start in all races for purses.

National Trotting Association Rules to govern trotting races. Pacific Coast Blood Horse Association Rules to govern running races, except as above.

All trotting and pacing races are the best three in five, unless otherwise specified, five to enter and three to start. But the Board reserves the right to hold a less number than five to fill, by the withdrawal of a proportionate amount of the purse. Entrance fee, ten per cent. on purse, to accompany nomination.

National Trotting Association Rules to govern trotting; but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot a special race between heats. A horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of starters appear they may contest for the entrance money, to be divided as follows: 60% to the first and 35% to the second.

In all the foregoing stakes the nominations are to be made on or before the day of P. M. of the day preceding the race, shall be required to start.

Where there is more than one entry by one person, an in interest, the parties must agree as to which of them shall be named by P. M. of the day preceding the race. No added money paid for a walk-over.

In trotting races drivers will be required to wear caps of distinct colors, which must be named in their entries. Each day's races will commence promptly at one o'clock P. M. All entries must be directly to C. H. Stoddard, Secretary of the Society.

EQUESTRIANISM.

Ladies' Grand Tournament for the most accomplished and graceful lady riders, Friday, Sept. 23, Wednesday, Sept. 28 and Friday, Sept. 30, at 10 o'clock P. M.

The Society offers four premiums, valued respectively at \$100, \$70, \$40 and \$20. The lady who is adjudged first shall have her choice of all premiums offered. The second lady shall have second choice, and so on. All ladies must ride with saddles.

It is expected that other special premiums will be added to this list by private contribution. No one but ladies of the highest respectability will be allowed to compete for prizes. Ladies wishing to compete for prizes will please send name to Secretary, endorsed by two members of the Society.

INDIAN PONY RACES.

On Thursday, Sept. 22d, Monday, Sept. 26th and Thursday, Sept. 29th the novelty of an Indian pony race will be provided, and the amusement of eight or twenty or thirty noble red men of the forest, mounted on the wildest and most unmanageable cayuses imaginable, galloping around the track at break-neck speed, will, as they say at the circus, be alone worth the price of admission.

GLYDESDALE MEDALS.

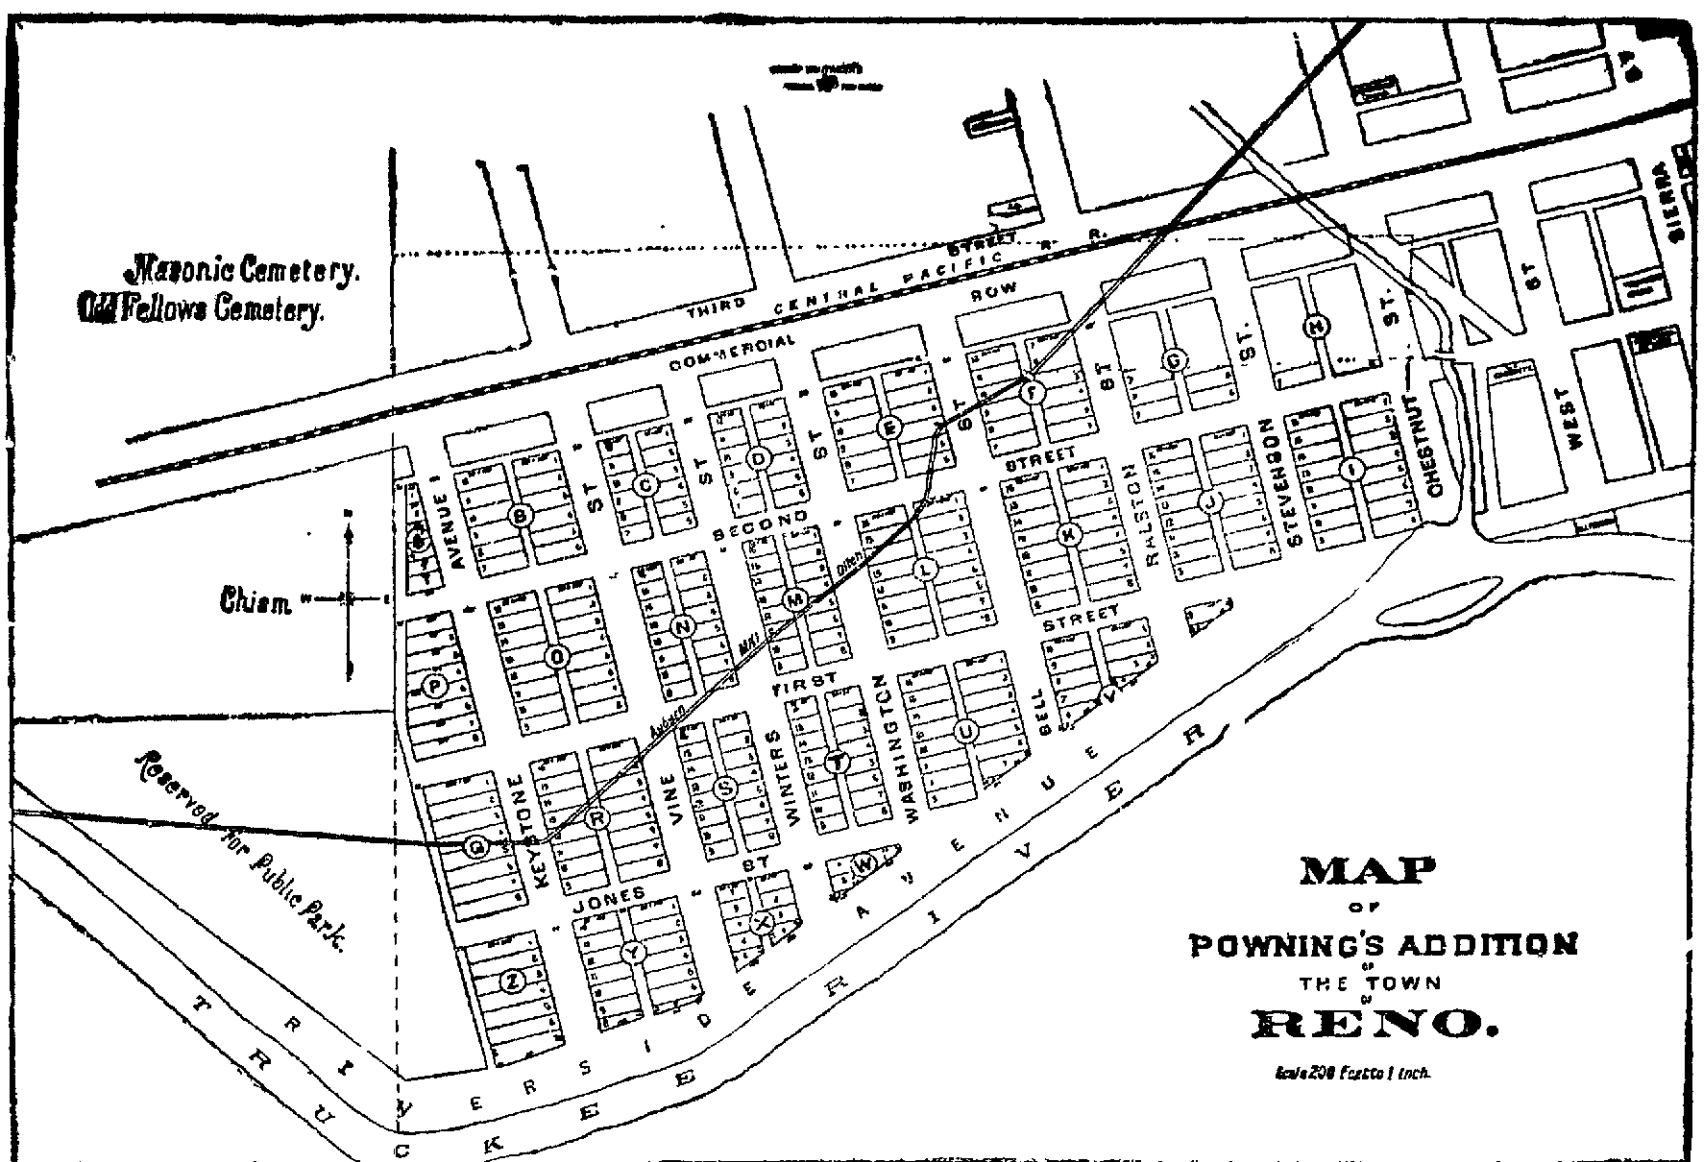

The American Glydesdale Association will give a valuable medal, of suitable design, for the best recorded Glydesdale station, and a similar medal for the best recorded Glydesdale mare bred in Nevada, and exhibited at the State Fair of 1887.

BALLOON ASCENSIONS.

Arrangements have been made for a series of balloon ascensions during the Fair, alike novel and exciting. Ascensions will be made daily from the race-track.

BICYCLE RACES.

Two or three bicycle races will take place between the fastest wheelmen in the State, and ten contestants are counted upon.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

PARKER'S MAP OF NEVADA.

PARKER'S NEW MAP OF NEVADA.

THIS NEW AND BEAUTIFUL

MAP OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to give the public a map being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school, house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.
